

ICAHiSE

International conference on
“Advancements in Healthcare &
Innovation in the Framework of
Sustainable Economy”

14-15
NOV, 2024

Venue

Auditorium, Building no. II
Brainware University, Barasat,
Kolkata- 700125

About The Conference

The interplay of Sustainable Development Goals (SDGs) 3, 8, 9, 12, and 17 through the lens of health, economic growth, innovation, sustainable production, and global partnerships requires a holistic approach. Emphasizing healthy lives and well-being for all ages besides the universal health coverage is a fundamental goal of SDG 3 (Good Health and Well-being). Integrating health and economic policies for inclusive growth acknowledges the interconnectedness between health outcomes and economic prosperity. Investments in health not only enhances well-being but also stimulate decent work opportunities and economic growth, aligning with SDG 8 (Decent Work and Economic Growth). Innovative healthcare solutions are crucial for sustainable development, leveraging advancements in technology and infrastructure under SDG 9 (Industry, innovation and infrastructure). Consumption and production practices within healthcare to minimize environmental impacts follows SDG 12 (Reasonable consumption and production). Global partnerships for health and economic resilience, emphasizing collaboration among stakeholders to address health challenges and promote economic stability in accordance to the SDG 17. In conclusion, integrating health into economic policies and fostering global partnerships are pivotal for achieving sustainable development and ensuring a healthy future for all.

Announcement / Invitation

On behalf of the Organizing Committee of ICAHISE 2024, we invite academicians, faculties, entrepreneurs, research scholars and students to the International Conference titled on 'Advancements in Healthcare & Innovation in The Framework of Sustainable Economy' The pivotal event is to be hosted by Department of Hospital Management, Brainware University, Kolkata. This conference aims to explore how healthcare advancements and innovation can drive sustainable economic growth through collaboration among stakeholders. It seeks to identify investment opportunities in health research and development while sharing best practices and developing policies to integrate healthcare innovation into economic strategies. The conference also emphasizes sustainable approaches in healthcare and economic development for long-term societal benefits.

About The University

Brainware University, a party of the distinguished Brainware Group with a legacy of over 34 years in education, stands as a beacon of research, innovation, and quality education. Established in 2016, our institution embodies the ethos of making quality education accessible across societal strata, fostering successful careers and nation-building.

With more than 13,000 students, 500 faculty members, 9 schools, and 62 programs, Brainware University has carved a niche for itself in the Indian education industry. Recognized as a Scientific and Industrial Research Organization (SIRO) in the period 2020-2022, the University conducts research in areas like IoT, green and sustainable technologies, biomedical engineering, nanotechnology, AI, and other cutting-edge areas. The University collaborates with other institutes to learn as well as share knowledge among faculty as well as students.

Department of Hospital Management

Hospital management is a crucial field that encompasses the management of healthcare systems, leadership, hospital networks, and hospital administration, playing a vital role in today's globalized world.

Brainware University offers a BBA in Hospital Management and an MBA in Healthcare & Hospital Management. The BBA program is a three-year full-time course, while the MBA program requires two years of full-time study. The growing healthcare industry has opened numerous career opportunities in health agencies, laboratories, and hospitals. These programs blend academic knowledge with practical experience to equip participants with the essential managerial skills needed in healthcare environments.
